

PARENT CONNECT NIGHT ON ZOOM

Keep Calm & Ask A Mental Health Clinician

Join us as we explore the importance of developing Social Emotional Learning (SEL) in our young deaf/hard of hearing children. We will start with a presentation by Tara Dyck, MSW, RSW. Some of you may also know Tara as a DHH Guide mentor with BC's Hands & Voices 'Guide By Your Side' program. We are excited to have her provide information on this topic in her professional role as a Mental Health Clinician. There will be opportunities to ask any questions you may have as well as connecting with other parents. ASL interpreters will be provided.

Tuesday December 7, 2021
7:00-8:30 PM
